## PANDUIT®

## Panduit®

**Panduit has your conduits covered.**

**Panduit** is recognized as a leading manufacturer of high-quality products for wiring and communications applications. Their product offering includes: cabling, connectors, copper wire, fiber-optic components, cabinets and racks, grounding systems, outlets, terminals, and other electrical components.

**Panduit** was born from innovation. In 1955 they launched their first product, Panduit Wiring Duct, a new invention that uniquely organized control panel wiring and allowed new wires to be added quickly and neatly. Since that time **Panduit** has introduced thousands of problem solving new products and remained committed to providing innovative electrical and network infrastructure solutions.

**Panduit's** electrical components tie together the communications, computing, power, and security systems of a building or physical location. Regardless of your industry, the performance of your physical infrastructure is critical to success. **Panduit** applies their extensive networking and electrical expertise to solve your toughest business challenges with real-world solutions.

You may have multiple application requirements or a single ongoing challenge. **Panduit** solutions deliver integrated services and complete product systems to address diverse needs across information technology, manufacturing operations, and facilities management.

Cable ties, crimp terminals, power connectors and cable management are just some of the Panduit product in **Hardware Specialty's** inventory.

Call your local **Hardware Specialty** sales contact for more information.
